SEE BACK FOR CLASS DESCRIPTIONS

MACROS IN EXCEL

If you are pretty good with Excel and wanting to move on, then this class is for you. Learn how to write your own Excel Macros, first using the wizard and then using Visual Basic. You will be amazed at what you can do with macros!

CREATE YOUR OWN WILL

Do you have a will? Have you been putting it off because you don't want to hire an attorney, and you really don't want to think about it. Well, now is the time because it is so easy. Come to this class and learn the different packages available to use and begin creating yours today! Don't let the court decide the outcome of your estate! Don't delay the distribution of your assets to your loved ones! Take just a few minutes to write your Last Will and Testament today (CEI is not offering any legal advice in this class, we are showing you how to use pre-designed software to create a will)

APPLE COMPUTERS – WHAT IS THE EXCITEMENT ABOUT

The Mac's are back in the market and they are gaining market share. What is a MAC, or a MAC PRO, or a MACBOOK AIR. Are they really better, faster and safer? Come to the lab and see what they are all about.

ALL ABOUT SMART PHONES

Is it time to upgrade your phone? Are you confused as to which one you should buy? What is it with all these smart phones, are they really that smart and are they worth the price? Come to this class and see many different smart phones and decide for yourself if you need to upgrade to one.

CONVERTING LPS AND TAPES

So, you have a zillion records and tapes and you don't know what to do with them. Convert them to CD's. Tapes and records wear out, get broken, and now converting them has never been easier!

IPODS

Come learn how to use that **IPod** of yours. Learn all about **ITunes** and how to get the music you want. We will also teach you about the accessories that you can purchase to make your **IPod** the best that it can be.

X10 NEW NEW NEW!!

X10 Home Automation: X10 equipment can be used to turn lights and appliances on and off, or to run cameras or other sensors. It can be computer controlled, set on a schedule or operated by remote control. Probably the most interesting application of this is home security systems.
