Web-based Case Management Pro gives you:

- ☑ 24/7 access local or remote
- ☑ Access anywhere on the web
- ☑ Lower cost to install and maintain
- ☑ Ease of use in familiar format
- ☑ Lower startup cost. No software to install
- ☑ Alert menus letting you know when you are running low on hours or completion dates on your referrals
- ☑ Export to Excel or PDF formats.

Designed for Indiana's Case Managers

CMP was developed to support the criteria of the Indiana DCS requirements.

- ☑ Monthly DCS Reports are directly uploaded into kidtraks
- ☑ Visitation Reports are directly uploaded into kidtraks
- ☑ E-Invoice file can be generated and uploaded

Case Management Pro
Web Based Case Management System

Case Management Pro

is a powerful and feature-rich case management and reporting system designed to improve the effectiveness of staff and management at every level of your organization.

Better Case Tracking

Case Management Pro helps your organization improve efficiency in day-to-day tasks, such as assessments, case notes, tracking client progress, measuring outcomes, providing referrals, and more. Case Management Pro provides a cost-effective, baseline software product that can be easily configured to how you work. As your organization changes, Case Management Pro will grow with you and help you achieve new levels of efficiency, transparency and accountability.

Customer Support

Computer Education Institute is committed to providing the highest level of customer support. We are a local company committed to our customers.

Customizable

Case Management Pro can be customized to work how you work. Because no two companies are alike, Case Management Pro was developed in independent units so you can pick and choose what works for your company.
